Welcome to VHA TRAIN — MISSION Act Curriculum

VHA TRAIN is supported by the Veterans Health Administration Employee Education System, an internal education and training program office in the Department of Veterans Affairs. The EES-developed learning programs found in the VHA support the professional development needs of public health and health care providers, with a focus on Veteran patient care.

The [VA MISSION Act of 2018](#), Sections 131 and 133 identified training for all community providers. Section 123, offers an online, no-cost, continuing medical education curriculum for community providers. This portal provides community providers direct access to curriculum established under the MISSION Act. Community providers are a vital part of VA's high-performing health care network; making sure Veterans who have served our country and their families get the timely, high-quality health care they need.

If this is your first visit select "Create an Account" on the left menu to register. Be sure to opt-in emails so that you can receive important messages. You can find a job aid on creating an account [here](#)
